Dear Sir/Madam,

My name is Eric Araújo, Professor at the Universidade Federal de Lavras since 2011. I'm also Adjunct Chief of the Computer Science Department and Head of the Behavioural Informatics Laboratory (BILbo). I'm writing to you today to express my support for **Danielle Lima Peixoto** in applying to your prestigious university.

It is my pleasure to recommend Danielle for admission to the Walton Graduate School of Business at the University of Arkansas Graduate School. Danielle was a student during two of the courses I lectured for Computer Science students at the Universidade Federal de Lavras. Danielle was a very dedicated student and distinguished herself by showing eagerness in learning despite the difficulties she had with health issues at the time.

Danielle was a remarkable student due to her communication skills, as well as her commitment to the tasks given during the courses she attended. The course of Discrete Mathematics, more specifically, is one of the hardest courses for computer science students as it demands good reasoning and sharp logic thinking. Danielle was struggling with her health at the time, but always informed me on her condition and successfully delivered the demanded activities on time. That was when I started noticing her as a promising professional, excelling in comparison to her colleagues. Besides intellectual intelligence, discipline, perseverance and initiative, Danielle has proved to be an emotionally intelligent person, very kind, gentle and respectful on a personal level.

The candidate applied for, was admitted and completed an international scholarship back in 2014 at the University of Arkansas Graduate School, which demonstrated her ambition in expanding and gaining international experience. I had the chance then, to recommend her to that program, and gladly recommend her now again for this further step in her consistent and well planned career. She will be a great asset to this program, and I look forward to learning about her achievements from the knowledge and experience she will gain in the near future.

Please do not hesitate to contact me if I can be of further assistance.

Thank you for your time and attention in reading my endorsement.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'E' followed by a series of loops and a final flourish.

Prof. Dr. Eric Fernandes de Mello  
Araújo
