

Wisdom in the Age of AI Conference +

Discerning Faithful and Responsible Use of AI in Education, Church, Business, Health Care, STEM, and the Arts

Hosted by Calvin University and co-sponsored by the CCCU and INCHE, the Wisdom in the Age of AI Conference, **Thursday, October 8 – Saturday, October 10, 2026,** brings together leading voices at the intersection of technology and Christian thought. This premier event features keynote speakers, dynamic panel discussions, and six focused tracks exploring the role of artificial intelligence in education, church, business, healthcare, the arts, and technology.

Join top Christian thinkers, practitioners, and the broader public as we explore how faith can shape the responsible development and use of AI, while advancing

human flourishing and contributing to shalom.

Registration

Friday Night + Saturday Pass

Conference registration is closed, but you can purchase a pass for events on Friday night and Saturday! The Friday Night + Saturday Pass includes:

- Friday
  - Keynote, 7 p.m. - Andy Crouch, Waking from our AI Dreams
- Saturday
  - Panel, 8 a.m. - Faithful Ministry in the Age of AI
  - Keynote, 9 a.m. - Rosalind Picard, Are We Merely Machines?
  - Panel, 10:30 a.m. - Threads & Themes
  - Keynote, 11:30 a.m. - Ryan Struyk, The Future of AI and News

All of these events are in the Covenant Fine Arts Center.

Purchase your Friday Night + Saturday pass online from the Box Office or in person one hour before each event.

Keynote Speakers

We are delighted to host a remarkable lineup of keynote speakers. In addition to the speakers listed below, we will also be hosting Calvin alumni, Ryan Struyk, the Director of AI Innovation at CNN.

Andy Crouch

Author, Musician, Public Speaker

Keynote: Waking From Our AI Dreams

Andy Crouch is partner for theology and culture at Praxis, a venture-building ecosystem advancing redemptive entrepreneurship. His writing explores faith, culture, and the image of God in the domains of technology, power, leadership, and the arts. He is the author of five books and his work and writing have been featured in *The New York Times, The Wall Street Journal, Time,* and several editions of *Best Christian Writing* and *Best Spiritual Writing*.

Israel Soong

Former Director, Office of Artificial Intelligence, CIA

Keynote: A Better Eschatology: Toward AI-Enabled Human Flourishing

Israel “Izzy” Soong is the former Director of the Office of Artificial Intelligence at the Central Intelligence Agency, where he was working to champion, orchestrate, and integrate AI activities across the organization. Prior to this role, he served at the White House National Security Council. Throughout his years of service with the Agency, Mr. Soong has held various positions, including assignments in support of the counterterrorism, China, and Near East missions, with multiple deployments overseas. His writing has been featured by The Gospel Coalition and

by the William Tennent School of Theology. He is currently an adjunct professor at Johns Hopkins School of Advanced International Studies (SAIS).

Rosalind W. Picard

Grover M. Hermann Professor in Health Sciences and Technology; Director of Affective Computing Research Group

Keynote: Are we merely machines?

Rosalind Picard is Grover M. Hermann Professor in Health Sciences and Technology at the MIT Media Lab, where she founded and directs the Affective

Computing Research Group. She is author of the book *Affective Computing* and co-author of hundreds of peer-reviewed scientific articles in artificial intelligence, digital health, affective computing, and human-computer interaction. Picard is co-founder and chief scientist of Empatica, providing FDA-cleared digital biomarkers and devices for clinical trials and research studies, and helping people with epilepsy and Parkinson's disease. Picard is also co-founder of Affectiva (now part of Smart Eye). Picard is a member of the National Academy of Engineering, the National Academy of Inventors, and a fellow of the IEEE, ACM, and AAAC. She received the 2022 International Lombardy Prize for Computer Science Research, the 2025 Trotter Prize in Information, Complexity and Inference, and the 2026 IEEE Medal for Innovations in Healthcare Technology.

Meghan Sullivan

Wilsey Family College Professor of Philosophy; Director: Notre Dame Ethics Initiative, Notre Dame

Keynote: The Dignity of Learning in the Age of Powerful AI

Meghan Sullivan is the Wilsey Family College Professor of Philosophy at the University of Notre Dame. She serves as Director of the University-wide Ethics Initiative and is the founding director of Notre Dame's Institute for Ethics and the Common Good. Through the institute, Sullivan oversees a $50.8 million grant from Lilly Endowment Inc. to support the DELTA Network: Faith-Based Ethical Formation for a World of Powerful AI. This goal is to further develop a shared,

faith-based ethical framework that scholars, religious leaders, tech leaders, teachers, journalists, young people and the broader public can draw upon to discern appropriate uses of AI. Sullivan has been honored with one of Notre Dame's Joyce Awards for Teaching, with the Provost's All-Faculty Team Award, and with the City of South Bend's 40 Under 40 Award. She holds degrees holds a Ph.D. in Philosophy from Rutgers and studied at Oxford as a Rhodes Scholar.

Ryan Struyk

Director, AI Innovation at CNN

Keynote: The Future of AI and News

Ryan Struyk leads CNN's strategic efforts to integrate artificial intelligence in the newsroom as Director of AI Innovation. In this position, he focuses on empowering journalists to tell AI-driven stories, leveraging AI to streamline editorial workflows, and educating journalists to use AI ethically and responsibly.
