RE: H-1B Notify the Office Petition: Eric FERNANDES DE MELLO ARAUJO

Dear Sir or Madam:

Calvin University ("Petitioner") submits this letter in support of its H-1B notify the office petition on behalf of Eric Fernandes de Mello Araujo ("the beneficiary"). Calvin University seeks to employ the beneficiary in the specialty occupation of Associate Professor - Computer Science at its work site in Grand Rapids, Michigan.

Petitioner

Calvin University, an independent, nonprofit, Christian Reformed Church affiliated denomination university, holds a strong position in character and quality among institutions of higher education throughout the nation. There are over 4,000 students currently attending Calvin University. Calvin University hosts over 300 full-time faculty and offers over 100 academic programs. Calvin University consistently receives national recognition for academic excellence and has received such recognition in a variety of college guidebooks such as America's Best Colleges, the prestigious guide from U.S. News & World Report, the selective Fiske Guide to Colleges, Barron's Best Buys in College Education, The Best 351 Colleges, published by the Princeton Review, and America's Best Value Colleges, also by the Princeton Review.

The institution was founded in 1876. In that year, the Christian Reformed Church adopted a six-year curriculum for ministerial training. The first four of these years were spent in the Literary Department and the last two in the Theological Department. In 1894, students who were not pre-theological students were admitted to an expanded curriculum, and thus the school became a type of preparatory school or academy. By 1906, the Literary Department, which provided the four years of preparatory and two years of college work, became known officially as the John Calvin Junior College. The two-year college in time became a four-year college, and the preparatory department was discontinued. In 1921, Calvin University awarded its first Bachelor of Arts degree. Calvin University is located in Grand Rapids, Michigan, and employs approximately 675 individuals.

Specialty Occupation Requirements

The U.S. Department of Labor's ("DOL") Occupational Outlook Handbook ("OOH"), states Postsecondary Teachers typically *"instruct students in a variety of academic subjects beyond the high school level."*

The OOH states the typical entry-level education for a position in the field of Postsecondary Teachers is a Ph.D. or other doctoral degree in their field, stating *"Postsecondary teachers who work for 4-year colleges and universities typically need a Ph.D. or other doctorate in their field of degree."* The DOL's O*NET entry for Postsecondary Teachers is consistent with the OOH. The O*NET indicates Postsecondary Teachers is a Job Zone 5 occupation, ", *"most"* of which require *"require a graduate school."*

The DOL's description of Postsecondary Teachers is very closely aligned with the job duties of the petitioner's Associate Professor - Computer Science position. Further, the DOL's general educational requirements for Postsecondary Teachers is consistent with petitioner's requirements to for entry into the Associate Professor - Computer Science position, which is a master's degree or higher in Computer Science or a related field or its equivalent. Therefore, the petitioner has selected the proper DOL occupational classification of Postsecondary Teachers.

Given a master's or higher degree or its equivalent in a specialized field is normally the minimum requirement for entry into Postsecondary Teachers occupations, and that this is the normal minimum requirement for Calvin University's position and for those in parallel positions among similar organizations, the Associate Professor - Computer Science position qualifies as a specialty occupation.

How to Become a Postsecondary Teacher

Institutions may prefer to hire those with teaching or other work experience.

Educational requirements vary with the subject taught and the type of educational institution. Typically, postsecondary teachers must have a Ph.D. or other doctoral degree in their field. However, a master's degree may be enough for some postsecondary teachers at community colleges. Other postsecondary teachers may need work experience in their field of expertise.

Education

Postsecondary teachers who work for 4-year colleges and universities typically need a Ph.D. or other doctorate in their field of degree. For some specialties or for part-time positions, schools may hire those with a master's degree or who are doctoral degree candidates.

Doctoral programs usually take several years to complete, and students typically need a bachelor's or master's degree to enroll. Most Ph.D. programs require students to write a doctoral dissertation, a paper presenting original research in their field of study, which they then defend in questioning from experts. Candidates usually specialize in a subfield, such as organic chemistry or European history.

Community colleges may hire those with a master's degree. However, some institutions prefer that applicants have a Ph.D.

Work Experience in a Related Occupation

Institutions may prefer to hire those with teaching or other work experience.

In some fields, such as health specialties, art, law, and education, hands-on work experience is especially important. Postsecondary teachers in these fields often gain experience by working in an occupation related to their field of study.

In other fields, such as biological science, physics, and chemistry, some postsecondary teachers have postdoctoral research experience. Sometimes called a "post-doc," this experience takes the form of a job that usually involves working for 2 to 3 years as a research associate or in a similar position, often at a college or university.

Some postsecondary teachers gain teaching experience by working as graduate teaching assistants—students who are enrolled in a graduate program and teach classes at the institution in which they are enrolled.

Licenses, Certifications, and Registrations

Postsecondary teachers who prepare students for an occupation that requires a license, certification, or registration, may need to have—or may benefit from having—the same credential. For example, a postsecondary nursing teacher might need a nursing license or a postsecondary education teacher might need a teaching license.

Advancement

Postsecondary teachers with a doctoral degree often seek tenure—a guarantee that a professor cannot be fired without just cause. Attaining tenure may take up to 7 years of progressing through the positions by rank: assistant professor, associate professor, and professor. The decision to grant tenure is based on a candidate's research, contribution to the institution, and teaching.

Some professors advance to high-level administrative positions, such as dean or president. For information on deans and other administrative positions, see the profile on postsecondary education administrators. For more information about college and university presidents, see the profile on top executives.

Important Qualities

Critical-thinking skills. To conduct original research and design experiments, postsecondary teachers need to analyze information logically.

Interpersonal skills. Postsecondary teachers need to work well with others for tasks such as instructing students and serving on committees.

Resourcefulness. Postsecondary teachers must be able to present information in a way that students will understand. They need to adapt to the different learning styles of their students and be able to use technology for lessons or assignments.

Speaking skills. Postsecondary teachers need good communication skills to present lectures and provide feedback to students.

Writing skills. Postsecondary teachers need strong writing ability to publish original research and analysis.

The following is an analysis and advisory evaluation of the academic credentials of Dr. Eric Fernandes De Mello Araujo. As discussed herein, Dr. Fernandes De Mello Araujo completed a bachelor's program in Computer Science at the *Universidade Federal de Vicosa*, in Brazil. Additionally, he completed a master's program in Computer Science at the *Universidade Federal de Minas Gerais*, in Brazil. Further, he completed a doctoral program of study in Information Systems at the *Vrije Universiteit Amsterdam*, in the Netherlands. Based on the foregoing academic credentials, I find that Dr. Fernandes De Mello Araujo attained the equivalent of a four-year Bachelor of Science Degree in Computer Science, a Master of Science Degree in Computer Science, and a Doctor of Philosophy Degree in Information Systems from an accredited US college or university.

Dr. Fernandes De Mello Araujo completed a bachelor's program in Computer Science at the *Universidade Federal de Vicosa*, an accredited institution of higher education in Brazil. Admission to the bachelor's programs offered by the *Universidade Federal de Vicosa* is based on the completion of secondary-level studies and competitive entrance examinations. At the *Universidade Federal de Vicosa*, Dr. Fernandes De Mello Araujo completed the requisite core liberal arts studies and concentrated studies in his area of specialization. The liberal arts studies included entry-level courses in the social sciences, mathematics, and the sciences, which are a requisite component of a bachelor's degree from an institution of higher education in the United States.

Additionally, Dr. Fernandes De Mello Araujo completed advanced bachelor's-level classes and examinations in his major area of concentration, Computer Science. Following his completion of the required academic classes and examinations, on April 4, 2007, Dr. Fernandes De Mello Araujo was awarded a bachelor's-level Diploma conferring upon him the *Grau de Bacharel* Degree by the *Universidade Federal de Vicosa*. The nature of the courses and the credit hours involved indicate that he attained the equivalent of a four-year Bachelor of Science Degree in Computer Science at an accredited college or university in the United States.

Thereafter, Dr. Fernandes De Mello Araujo completed a master's-level program in Computer Science at the *Universidade Federal de Minas Gerais*, an accredited institution of higher education in Brazil. Admission to the master's programs offered by the *Universidade Federal de Minas Gerais* is based on the completion of bachelor's-level studies and competitive entrance examinations. Dr. Fernandes De Mello Araujo completed a graduate-level program of study, with a concentration in Computer Science. Following his completion of the required academic classes and examinations, on July 21, 2010, Dr. Fernandes De Mello Araujo was awarded a Diploma for a *Grau de Mestre* Degree by the *Universidade Federal de Minas Gerais*. The nature of the courses and the credit hours involved indicate that he attained the equivalent of a Master of Science Degree in Computer Science at an accredited college or university in the United States.

Further, Dr. Fernandes De Mello Araujo also completed a doctoral program in Information Systems, at the *Vrije Universiteit Amsterdam,* an accredited institution of higher education in the Netherlands. Admission to the doctoral programs of the *Vrije Universiteit Amsterdam* is based on the completion of master's-level studies and competitive entrance examinations. Dr. Fernandes De Mello Araujo completed a doctoral program comprising classes, examinations, and research in the discipline of Information Systems. In addition, he defended a doctoral thesis entitled, *"Contagious: Modeling the Spread of Behaviours, Perceptions and Emotions in Social Networks."* Following his completion of the required academic classes and examinations, Dr. Fernandes De Mello Araujo was awarded a Diploma for a Doctor of Philosophy Degree by the *Vrije Universiteit Amsterdam*, on September 5, 2018. Based on the completion by Dr. Fernandes De Mello Araujo of the doctoral program at the *Vrije Universiteit Amsterdam*, it is evident that he attained the equivalent of a Doctor of Philosophy Degree in Information Systems from an accredited US college or university.

Accordingly, based on the reputations of the *Universidade Federal de Vicosa*, the *Universidade Federal de Minas Gerais*, and the *Vrije Universiteit Amsterdam*, the number of years of coursework, the nature of the coursework, the grades attained in the courses, and the hours of academic coursework, it is the judgment of The Trustforte Corporation that Dr. Eric Fernandes De

Mello Araujo attained the equivalent of a four-year Bachelor of Science Degree in Computer Science, a Master of Science Degree in Computer Science, and a Doctor of Philosophy Degree in Information Systems from an accredited college or university in the United States.

This evaluation is based on copies of the original documents provided by Dr. Fernandes De Mello Araujo and represented to be authentic and true copies of the original documents. We have no reason to doubt the authenticity and accuracy of these documents.
